

Dear Representatives,

I urge you to oppose RB 5447 scheduled for public hearing on March 14, 2018. As a volunteer in the autism and special education community for over twenty years this will have a devastating impact on private providers in this unique community. How the State of Connecticut feels it can set a "one price for all" fees for services schedule baffles me.

Please do not put our most vulnerable students and recipients of services at risk.

Christopher B. Carveth, Esq.

Orange CT
